SCAN SOLUTIONS

PARTS WIZARD

Scan Solutions provides you with a simple to use system that puts YOU in control of your inventory! Work with confidence knowing that Parts Wizard is there for you every step of the way!
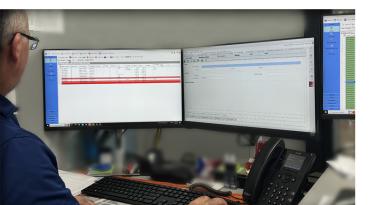

ORDER CHECK-IN

Parts Wizards main focal point is to help you check in your morning orders more efficiently! Using a scanner to complete this daily process will save you time, prevent receipting issues, reduce human error, and create an overall better experience!

INVENTORY CONTROL

This easy to use software gives you complete control and transparency over your inventory while providing you peace of mind that all parts are in their place.

- Use the handheld scanner to make LIVE bin changes for all parts in inventory
- Perpetual Inventory reports update in real-time for daily cycle counts
- Utilize the mobile printer to create bin location and part number labels on the fly (hard card options also available)
- Using the scanner you can look up parts in inventory and create a list of parts eliminating the need for handwriting.

PARTS WIZARD ADD-ONS

Pick-It Wizard
Fulfill orders in 50% less time while increasing accuracy! It's an ROI dream come true!

POS Wizard
Affordable Point-Of-Sale system for your DMS to create the ease & efficiency you have always wanted!

**Physical Inventory Options Available**

DETAILED REPORTING

Use Parts Wizards' reporting tools and time- saving features to maximize efficiency within your departments.

- For Order Check-in, use reports such as Not-Posted, Posted, & All to ensure all orders are accounted for.
- Inventory Reports enable you to verify all on-hand counts match across the board.
- Quickly identify items needing attention with color-coded reporting.
- Use your All-Inventory report to review item part numbers, bin locations, & on-hand counts.

PRINTER & LABELS

Parts Wizards mobile printer is portable and can easily go with you anywhere throughout your warehouse. Use our printer to label the entire warehouse and all special orders! Our Special Order Labels have detailed information including:

```
DEALERSHIP NAME                    2024/4/13
